

Claim Form for Individuals

The First Nations Drinking Water Settlement will compensate members of First Nations that experienced long-term drinking water advisories while living on an Impacted First Nation.*

You might not need to fill out this form. Please check www.firstnationsdrinkingwater.ca first, to see if your First Nation has filed a claim on behalf of its members. If it has, then please call the Administrator and they'll help you check if you're already on our list. If you are, then you only need to fill out this form if you're claiming for Specified Injuries.

This is the form to claim compensation for yourself. If you want to make a claim for someone else (for example a minor child, a person under a disability, or a person who has passed away) then please fill out the 'Claim Form on Behalf of Another Person' found at www.firstnationsdrinkingwater.ca

To qualify for compensation, you must...

- ✓ Be a member of a First Nation, have been alive on November 20, 2017, and...

If born *before November 20, 1995*

- ✓ ordinarily resided / lived on an Impacted First Nation during a long-term drinking water advisory that lasted continuously for a year or longer, anytime between November 20, 2013 and June 20, 2021

If born *on or after November 20, 1995*

- ✓ ordinarily resided / lived on an Impacted First Nation during a long-term drinking water advisory that lasted continuously for a year or longer, anytime between November 20, 1995 and June 20, 2021

**For a list of Impacted First Nations and dates of long-term advisories, please see below at pages 6 to 14. Also, please note that Tsuu T'ina, Sucker Creek, Ermineskin Cree, the Blood Tribe, and the Okanagan Indian Band are bringing their claims in a different way, so their members aren't eligible for compensation under this settlement*

There is a deadline! If your First Nation has not already submitted a form for you, then you must submit one for yourself **by March 7, 2023**

**This form has three parts you must fill out, and two parts that are optional.
The three parts you must fill out are...**

	Part 1: Your Name and Key Details	This is where you share key details like your name and birthday, your address and contact numbers, payment info, and a copy of your ID. This allows us to create a file for you.
	Part 2: Where You Lived	Here, you'll tell us about the place (or places) where you lived. We use this information to figure out how long you suffered under long-term drinking water advisories.
	Part 3: Authorization	This is where you agree to the terms and conditions, promise the information you gave us is correct, and give us permission to review and decide your application.

The next two parts are optional. You do not have to fill them out unless you want to make a claim for additional compensation for Specified Injuries, or you do not have any identification.

	Part 4: Specified Injuries	This section is where you can claim for additional compensation if you suffered serious, long-lasting injuries that were caused either by using water in accordance with the long-term drinking water advisory, or because you didn't have access to clean safe water because of a long-term drinking water advisory. Please note that you must have been using the treated or tap water. Using untreated water from surface water sources such as lakes, pond, or rivers is not covered.
	Part 5: Sworn/ Affirmed Declaration	This is where you sign your name, promise the information you've given us is correct, and give us permission to review and decide your application for Specified Injuries compensation. Because the Specified Injuries compensation is <u>additional</u> to what everyone who suffered under a long-term drinking water advisory will get, an approved guarantor, such as a community leader, also needs to sign this section as your witness. This Part is also required if you do not have any identification.

\$ Payment Information

- ✓ Payments will be assessed and issued to eligible claimants after the end of the claims period
- ✓ The claims period ends on **March 7, 2023**, so payments will be in **mid-2023 or later**
- ✓ Compensation will depend on the total amount of funding available, and number of eligible claims received

If your claim is approved, we can pay you by cheque or by direct deposit. Which would you prefer?

Please **mail** me a cheque at the address I provided above

I have attached a completed direct deposit form or void cheque and would like you to pay me by **direct deposit**

Tips and Pointers for Direct Deposits

- ✓ If you'd like a direct deposit, you must attach a void cheque or direct deposit form to this claim form, so we know where to send the money.
- ✓ The bank account needs to be in your name. We can't send money to someone else's account. If your account changes, please contact the Administrator.
- ✓ We can only deposit to Canadian bank accounts.
- ✓ Please make sure the information you give us is correct. Once the money is deposited, we can't get it back or make replacement payments. For example, if you provide a family member's banking information instead of your own, we can't get that money back for you.
- ✓ If the void cheque or direct deposit form are invalid, we will mail your cheque instead.

If you move after you send us this Claim Form, please make sure you contact the Administrator at 1-833-252-4220 and give us your new address!

PART 2: WHERE YOU LIVED

In this section, you'll **tell us about what reserve (or reserves) you lived on, and when**. We will use that information to figure out how much compensation you are eligible for.

There's a long table below, listing all the First Nations that had known long-term drinking water advisories in the timeframes covered by the settlement. As a reminder, a 'long-term drinking water advisory' means one that lasted for a year or longer.

Beside the name of each First Nation, there are date boxes. Please **fill in the date boxes next to the First Nation where you lived**, starting with the month and year you began living there, and ending with the month and year you stopped living there (if applicable).

*If you were born before November 20, 1995, then please share with us where you lived from **November 20, 2013 to June 20, 2021**.*

*If you were born on or after November 20, 1995, then please share with us where you lived from **November 20, 1995 to June 20, 2021**.*

Tips and Pointers for Part 2

- ✓ You only need to share the times and locations that you were living on any of the First Nations listed below. You don't need to share information about other times and locations.
- ✓ If you were under 18 when you lived on reserve and moved away from your community to attend school, that time should be treated as time spent living on reserve and included in the table below.
- ✓ If you lived in more than one First Nation on the list below, that's fine. Please complete the date information for all the listed First Nations that you lived in.
- ✓ If you have questions about why we're only asking for certain timeframes based on when you were born, please see the 'Limitations Periods' section of the online FAQ page. You can find it at www.firstnationsdrinkingwater.ca
- ✓ If you think your First Nation had a drinking water advisory that lasted a year or more, but you can't find it on the list below, please **call the Administrator** at 1-833-252-4220, or include the information in the 'Other First Nation(s)' section at the bottom.

The Administrator handles claims applications, like the one you're making by submitting this form.

1. The Administrator's job is to process applications carefully, fairly, and efficiently, based on the instructions they are given and the information they are sent. They don't represent Canada, the First Nations, or First Nations members. They are not lawyers, and they don't offer legal advice.
2. Because the Administrator just administers the claims, it is not their job to identify or protect the legal rights of Canada, First Nations or First Nations members, or to raise issues that Canada, First Nations or First Nations members didn't raise.

PART 4: SPECIFIED INJURIES

(This section is optional)

This part is optional. You don't have to fill it out. The intention of this settlement is to offer recognition and comfort to those that have suffered. Unclean and unsafe drinking water leads to suffering for everyone, but **some people suffered additional harms: serious and specific injuries directly caused by unclean water.** If that happened to you, then you can fill out this part and make a claim for additional compensation.

It is often difficult to talk about suffering. We don't want to re-traumatize anyone, so we've tried to keep this form as simple and matter of fact as we can. If emotional support would be helpful, please connect with the Hope for Wellness Help Line at 1-855-242-3310 or online at www.hopeforwellness.ca.

There are two levels of additional compensation. Here are the rules for making a claim:

Harm Level 1 is for serious harms that lasted more than a month but less than a year. To be eligible you must meet all the following criteria:

1. You must have suffered significant and prolonged health problems that harmed your quality of life and disrupted your well-being and/or daily activities.
2. The injuries must have been **directly caused by the Long-Term Drinking Water Advisory**, either because you used treated or tap water in accordance with the advisory but still got sick, or because you didn't have proper access to treated or tap water.

This means you must have followed the advisory instructions. For example, if a boil water advisory was in place, you must have followed the instructions and always boiled your tap water beforehand. This also means you must have been using the treated or tap water. Using untreated water from surface water sources such as lakes, pond, or rivers is not covered.

3. The health symptoms must have persisted for a minimum of one month of consecutive days, up to/under one year.
4. You must have tried to get treatment for your injuries.

In many First Nations it can be difficult to access health care, so if you were not able to get treatment you can still make a claim, as long as you tried to get help from someone, such as an elder, community health leader, shaman, knowledge-keeper, traditional healer, medicine-person, nurse, or doctor.

Harm Level 2 is for serious harms that lasted more than one year. To be eligible you must meet all the following criteria:

1. You must have suffered significant and prolonged health problems that harmed your quality of life and disrupted your well-being and/or daily activities.
2. The injuries must have been **directly caused by the Long-Term Drinking Water Advisory**, either because you used treated or tap water in accordance with the advisory but still got sick, or because you didn't have proper access to treated or tap water.

This means you must have followed the advisory instructions. For example, if a boil water advisory was in place, you must have followed the instructions and always boiled your tap water beforehand. This also means you must have been using the treated or tap water. Using untreated water from surface water sources such as lakes, pond, or rivers is not covered.

3. The health symptoms must have persisted for at least one year of consecutive days.
4. You must have gotten treatment for your injuries from a health-care practitioner.

A health-care practitioner can be any of the following: a traditional healer, a medicine-person, or a doctor.

- ✓ Compensation amounts for Specified Injuries will depend on how many eligible claims are made by Class Members. If you are eligible, your compensation will be based on the total number of eligible claims, the type of harm you suffered, and the level of that harm.
- ✓ You can choose more than one of the nine types of harm in the list below, but you can only choose one level of harm for each type. Please identify all that apply to you. If you choose several types of harm, the Administrator may contact you for additional clarification.
- ✓ You do not have to provide supporting documents or testimony to make a claim. But if you want to, when you submit your claim you can include things like (a) medical records of the injury and its cause; (b) other records, including written records, photographs, and videos, of the injury and its cause; (c) a written statement; or (d) oral testimony.
