1. Overview

The Siksika Nation is inviting proposals from qualified organizations to work in partnership to develop comprehensive operational management services for the Siksika Nation Recovery Community, a forthcoming 75-bed inpatient recovery facility which includes 6 detox beds dedicated to holistic addiction treatment. This initiative is a collaborative effort between the Siksika Nation and the Government of Alberta, aiming to address the pressing need for culturally appropriate recovery services within the community and the broader Calgary region.

The selected partner will report to the litaisokinaapyoyis Healing Lodge Board of Directors. The selected partner will be responsible for providing sub operations in collaboration with litaisokinaapyoyis vision. This includes co-developing operational activities, from pre-opening preparations to co-management of day-to-day operations, ensuring the delivery of services that are both clinically effective and culturally resonant. A key aspect of this partnership will be the commitment to capacity-building within the Siksika Nation, with the goal of transitioning to a fully Nation-operated facility by the end of the initial contract term – March 2027.
